**FOURWINDS CONSTRUCTION INC.**

Carwell Construction Limited has enjoyed a professional relationship with Fourwinds Construction Inc. since 2000. We have worked closely on several construction projects from mid-size to large developments in the commercial sector of the construction industry.

Fourwinds has successfully tendered and completed all projects to schedule. Their management and site staff are professional team players, knowledgeable in their field of expertise.

They remain on our list of qualified bidders and we would have no hesitation recommending Fourwinds to other developers.
